

# Designing Spaces for You to Live, Love and Grow!

## Spaces to Dream Big

Uplifting extras and finishes lend our homes a distinctive look and a better value. With expansive 9-ft ceilings, our homes feature an extended 8-ft entry door, larger archways, bigger windows, and an open, airy feel.

## Live Well, Love Food

Feel even better eating well in a gourmet kitchen with designer touches, such as extended uppers, granite or quartz counters with undermount sinks, and thoughtfully designed cabinetry that maximizes how you use your space.

## Rest, Relax, Retreat

Soothe away the cares of the day in master retreats that redefine what it means to rest. Our master bedrooms are finished with tray ceiling details that define the space with a designer touch, and our ensuites are luxuriously appointed with freestanding soaker tubs, glass showers, and beautiful cabinetry.
